

MISSION SPECIFIC TACTICAL CARRIER (MSTC)

MSTC-100

Man-mounted survival gear that affords survivability capabilities against specific threats is essential. The Mission Specific Tactical Carrier (MSTC) is the ultimate outer enhancement to conventional concealable armor that first-responders are already wearing under the uniform. It achieves the intangible balance between the competing demands of suitable ballistic coverage for the mission, ease of mobility & maneuverability, and the proficiency of performing mission-related functions to ensure mission compatibility. through customizable configurations. The MSTC also offers a fully modular tactical armor package where each ballistic panel is removable ensuring complete flexibility for the operator, based on ever-changing situational demands. Internal front and back plate pockets make the platform slimmer and better suited for constricted or tubular spaces.

MSTC features SALUTE™ laminate by MIL-PRO®, "A game-changer"!
